2nd Annual Minicon Medallion Hunt Back by Popular Demand!

The Bozo Bus Tribune is excited to announce its sponsorship of the Second Annual Minicon Medallion Hunt! Want to solve riddles, win Dealer Dollars and be honored by the BBT? Read on for details.

Thirteen marked 1973 pennies (a.k.a. medallions) have been squirreled away in the most tenebrous recesses of the hotel. (Disclaimer: Some locations may be more fun than tenebrous.) Your mission: find them and turn them in for fame, fortune and Dealer Dollars.

Much like last year, the final penny's clue is a secret and will require a few steps to track down. Consider Clue #12 a warm-up for the really hard one--they have something in common.

Given the gleeful rapacity with which last year's medallions were retrieved, this year's clues have been made perhaps a wee trifle harder. They are numbered in rough order of difficulty. The prizes, you ask? Dealer Dollars, plus getting your name in an upcoming issue of the BBT! Medallions 1-10 are worth \$5, Medallions 11-12 are worth \$10, and Medallion 42 is worth a whopping \$30.

Take any medallions you find to the Bozo Bus Tribune office, located in Plaza 3, for your reward.

The first round of clues is on page 2. Further clues will be provided in future issues of the Bozo Bus Tribune (for those medallions that remain undiscovered.)

Important! All the medallions have been hidden in public places within the hotel. None have been hidden in the art show, the dealer's room, or any of the hotel's stores or restaurants. Take care when searching not to disturb hotel guests or set off any emergency alarms.

What is a "Dinner Expedition"?

--- Rachel Kronick, Programming Goon

On the schedule for Friday and Saturday at 5:35pm, you'll find the Dinner Expeditions. Some people are wondering what these are. They're for anyone who wants to go to dinner with fellow fans and either doesn't know anyone to go with or would like to go with a larger group. Who can come? Anyone who wants to. Where do you go? Wherever the group(s) decide to go. Whoever wants to go to Chez Colette can go there; whoever wants to go to Burger King can go there; you get the idea. If you want to go, make sure you show up by 5:35pm, because that's when it's okay for everyone there to say "No one else is coming - let's go!"

Have fun, meet fellow fans, get some good food, go on an Expedition!

HOTEL

Rooms are still available at the con rate (\$85). Normal checkout is noon. If you need an extended checkout time, call the front desk.

SIGNAGE POLICY: IMPORTANT!!!

The hotel asks that we not post any signs in "public areas" of the hotel. Signs can be placed on bulletin boards (such as the one by the escalator) and in the 2nd floor consuite area. If you are putting up material by or in your room, please come by the consuite and pick up a roll of blue gaffers' tape.

Volunteers Needed!

CONSUIE needs people with 15-30 min to spare throughout the day.

We always need bartenders. Experience not required, but must be over 21. Ability to stay awake and coherent well into the wee hours a plus. Come to the consuite and ask for Joel, Brian or Keith.

Uber-typist needed: Programming needs a transcriptionist to work with Peer Dudda during his panels: Ask A Disabled Fan (Sat. 2:30-2:30) and Fun with Sapir-Whorf Hypothesis (Sun 2:30 - 3:30). Having your own laptop to do the transcription would be best. See Rachel Kronick, Head of Programming, to volunteer.

Registration needs volunteers to staff the Registration Table from 11am - 1pm and 7pm - 8pm on Saturday. Go to either the Registration of Volunteer tables to volunteer.

Registration Update (as of 5pm)

If you buy one Minicon 42 t-shirt, you can buy as many Minicon 40 and 41 t-shirts as you want for \$10 each. What a deal! Stop at the Sales table in the Plaza lobby (near Registration). Supplies are limited, so hurry.

Medallion Clues, First Round

1. Going NEwhere? Could you pick up penny #1 on your way out? It should be nice and warm.
2. P2 boasts of a distinguished little home with a wooden door.
3. Lakeside picnic, anyone?
4. This penny thinks of itself as yellow and bouncy.
5. Penny #5! Putting the 'A' in 'lighthouse'!
6. It's International Flag Code!
7. You can't leave in the middle! You can, however, go partway and then look back.
8. Nat 18 in Shower Singing? Nonsense--your chance of that's only one in...
9. If Craig Schwartz worked in the north tower...
10. If you can't go to the rainforest without breaking the rules, do the next best thing!
11. A solar eclipse for Evelyn Sibley's city. Where is it, and who gave the inhabitants an extra 'P'?
12. If five posts stood ternarily, on what base would they be standing?
42. And the question was...?

Be Nice

We're sharing the hotel on Friday with the Trump Family's "Creating Wealth Summit." Try not to freak the mundanes. Starting Saturday, Minicon is the only event in the hotel.

Medallion Hunt – Round 2

Medallion Hunters Keep Cluemeister Hopping

Despite Cluemeister's determined attempt to "make the clues harder this year" the rabid pack of medallion hunters had already started turning in medallions yesterday within an hour of publication. By midnight most of the medallions had been found (although the elusive #42 remains at large).

Due to the overwhelming response to the medallion hunt, the Con Chair has authorized \$25 more Dealer Dollars for use as prizes in a second round of medallion hunting.

The Cluemeister worked through the night to hide five more medallions, whose clues can be found on the next page.

This Just In

Due to an unexpected turn of events, the BBT Prize Committee has been forced to create a new prize category. The first Medallion Sharp Eyes Award goes to Geri Sullivan for finding Medallion #15 even before the clues were released. Ms. Sullivan has been deputized and authorized to rehide her medallion in a new location. *Dang, it's hard to keep up with you people! –ed*

Volunteers Needed!

CONSUIE always looking for bartenders and twinkies. Short shifts available.

Uber-typist needed: Still looking for a transcriptionist for *Fun with Sapir-Whorf Hypothesis* (Sun 2:30 – 3:30. See Volunteers Head (Kevin) or talk to Peer Dudda directly.

Registration needs volunteers to staff the Registration Table 7pm – 8pm on Saturday.

Krahn-Gahlon 4am Pulse Check

... or, whatever happened to All Night Fandom? Gahlon was AWOL at 4am, but Krahn persevered without him. The consuite was closed. The largest concentration of people was the 9 cleaning up after the big music party.

Total warm bodies: 22

Programming Update

The Lois McMaster Bujold reading listed for 4pm Saturday is actually a **signing**, in the regular signing area.

Medallion Hunt Update!

Tremendous Response by Searchers Pays Off Big

As of 11:30am only lowly #1 and the elusive #42 remain at large. #3 and #9 have reportedly been found, but not turned in yet. Here's the list of winners and their stories

1. Going NEwhere? Could you pick up penny #1 on your way out? It should be nice and warm.

STILL OUT THERE. Amusingly, this was supposed to be the easiest clue! Not only has it eluded capture so far, at least 3 other medallions were found by searchers specifically looking for #1. New clue below

2. P2 boasts of a distinguished little home with a wooden door.

[Jason Malgren] In Plaza 2, behind the little wooden door on the wall.

3. Lakeside picnic, anyone?

[Reportedly found but not yet turned in.]

4. This penny thinks of itself as yellow and bouncy.

[Kyle Malgren] Inside a yellow balloon in the consuite, where else?

5. Penny #5: Putting the 'A' in 'lighthouse'!

[Rob Ihinger] Above the letter A in the Navigator Bar sign. "I was standing in front of the bar when I read the clue.

6. It's International Flag Language!

[Emily Weiser] Behind a semaphore sign on the 2nd floor bulletin board. In code, the sign read 'TEAR THIS SIGN DOWN.' Fortunately, this seeker was not prone to overthinking things, and simply swiped the penny, leaving the sign in place until it finally disappeared several hours later.

7. You can't leave in the middle! You can, however, go partway and then look back.

Emergency exit in the middle of the second floor passage between the towers. Penny was taped to the overhang behind you as you descend. Astoundingly, Rob knew the location of this penny the second he read the clue. He credits his years of service as trouble shooter and hotel liaison.

8. Nat 18 in Shower Singing? Nonsense--your chance of that's only one in...

[Lisa Freitag & Steve Glennon] Okay, this one was for gamers. Your chance of rolling a Natural 18 on 3D6 is apparently 1 in 216. It was in the shower of Room 216 (Consuite).

9. If Craig Schwartz worked in the north tower...

[Possibly found but not turned in.]

10. If you can't go to the rainforest without breaking the rules, do the next best thing!

[Fiona Ihinger] Found while looking for #1, leafing through hotel brochures for "things that sounded warm." It was behind the brochures for the Rainforest Cafe.

11. A solar eclipse for Evelyn Sibley's city. Where is it, and who gave the inhabitants an extra 'P'?

[Rob I] Also found while looking for #1. "I was looking for hot

places near the NE exit, and it was inside the light sconce under the stairs." Fiona and Delia, reasoning backwards, deduced that the clue was a reference to City Under the Back Steps by Evelyn Sibley. The book features ants, while the penny was above a 'city' of plants. The penny obscured their light, thus the eclipse.

12. If five posts stood ternarily, on what base would they be standing?

[Rob Ihinger] "I was still looking for #1. It was on the baseboard of a doorway nobody EVER uses in the hallway behind the 1st floor consuite."

42. And the question was...?

STILL OUT THERE! New clue below.

Medallion Clues, Second Round

0. Beware, for this penny marks the telephonic descent into degenerate, self-referential madness.

1. It's right where you think it is; you just have to feel around.

14. If last year's second #8 was a pointer, this clue is a pointer to a pointer. Swing!

15. What's so strange about this 2 by 2 grid? The one with the similitude of lockedness is the only one that's not.

16. Look for something teal in a sea of maroon and blue stripes.

17. The crux of the question is the apostrophe.

42. Penny 12 is found, but the ghost of its logic lives on. 'Ternary' isn't a clubhouse for seabirds, and SFBM is more wholesome than he sounds. Find a hidden clue in yesterday's BBT.

Medallion Hunt Update!

The Rest of the Story

1. It's right where you think it is; you just have to feel around.

[Lisa Freitag] *At last! The last clue says it all. William and Jory helped, says Lisa, "...but it was my fingers in the dirt." The penny was taped under the lip of the heater in the northeast airlock.*

3. Lakeside picnic, anyone?

[Jory Phillips] *Right where you'd expect—by the pool, taped to the underside of a picnic table.*

9. If Craig Schwartz worked in the north tower...

[Found, but by whom?] *The next clue would have been... "Malkovich. Malkovich? Malkovich. (A different kind of descent into degenerate, self-referential madness.)" That's right, it was in the stairwell on the seventh-and-a-half floor. Craig Schwartz may be a photographer, but it's also the name of the protagonist in the movie Being John Malkovich.*

14. If last year's second #8 was a pointer, this clue is a pointer to a pointer. Swing!

[Fiona, Neysa & "that one dude" (name unknown)] *Last year's clue pointed to the sauna. What else points to the sauna? The sign outside it! It's good to know that when you're not tall enough to reach a sign by yourself, you can rely on the assistance of that one dude to knock the penny off it.*

15. What's so strange about this 2 by 2 grid? The one with the similitude of lockedness is the only one that's not.

[Emily Weiser] *"We were so fed up with looking that we gave up, but then we were walking towards the lobby and noticed those 4 little cupboard doors near the stairs.."*

16. Look for something teal in a sea of maroon and blue stripes.

[Found by somebody who didn't give his name.] *Taped under the seat of one of only three chairs in the first floor inter-tower hallway with a teal seat rather than a striped one.*

17. The crux of the question is the apostrophe.

[Delia, Neysa & Fiona] *The Cluemeister would never misspell "apostrophe" – unless he meant you to think of something else, like a coffee house. It was behind the apostrophe in the Krushenko's banner.*

Medallion Clues, Third Round

0. It's like gazing into infinite mirrors—only with sound. Do you have the right number?

42. Okay, let's spell it out for you. Pocket program-->base three-->Morse code-->30 Dealer Dollars. Clear enough?

Programming Reviews

Pop-Up Book Panel : *Laura Krentz, Jane Yolen, Lydia Nickerson (m)* – reviewed by *Jeanne Mealy*

This panel provided many enjoyable moments of whimsy and enlightenment. Panelists and audience members shared their passions about paper engineering and marveled at the intricate, artsy designs on display. Factoid: Euclid created the first pop-up book.

The Ethics of AI – reviewed by *Thorin Tatge*

This panel was well-attended, energetic, and far from complete when it was over. One noteworthy issue: Do we have an obligation to preserve and even educate those high-level AIs we create, before buying them some server space and turning them loose? One participant points out that most ethics are not brand new, but stem from analogy. Is the analogy we're using that of a child or puppy, or that of 'we mustn't teach the slaves to read'?

Trouble In A Bubble

by Meredith Rittenhouse

One day Meredith was blowing bubbles with her friends at the park. Then she went over to the shade, and ate some lunch. She slowly fell asleep.

When she woke up, she was floating in a bubble. She looked down and thought, "This is kinda scary!" Meredith was scare of heights; that' why she thought it was so scarey. But she was having fun because she was circling around and around.... After a while, she started to be still, and then she started squiggling!

When she stopped squiggling, she started sticking to the walls of the bubble.

She looked out once again and she saw she was slowly floating down a large pile of bubbles. Then, she started going faster and faster, and then... POP.

She landed in the pile of bubbles, and tried to get up, but she kept on slipping around. Finally, she just sank through the pile. All the bubbles popped!

Meredith started to get up. She slid around on the leftover bubbles a few times. When she finally got her steadiness back, she walked around.

Then she ran into a big rope. She went under it, and went around a big object holding the rope. She realized... it was her friend's shoe! She started carefully lifting it up. Meredith closely escaped the large, stomping object.

When she got back to the leftovers of the bubbles, her friends finally noticed her. At first, they thought it was a bug.

They all reached their hands down to the leftovers of the bubbles. They said, "Ha ha!", and started laughing very loudly. The first person to stop laughing stopped to pick up Meredith, and then took her back to the friend's house.

The person picked up a pot and put in on the stove, and started boiling water. Then, she dropped Meredith into the pot!

Then Meredith woke up, and got up from the apple tree, and started walking back to the bubbles. She started blowing bubbles, then she thought, "That was an odd dream; could it really happen?"

So then, when she got home from the park, she went to sleep that night, and she had another bubble nightmare.

Camping Story

by Eleanor M. H. Dorn

"Martha, hurry up. It's time to go," Jane Jakers called to her daughter Martha. The Jakers family was going on a camping trip for a week.

"Alice, are you packed?"
"Yep, almost ready," she replied.

"Mom, this time, please remember the camera," reminded Martha. The Jakers climbed into the car. One hour later the campsite came into view.

"Can we go on a hike first?" Martha asked.

"Martha, Mom said we would hike till we found the camping spot," Alice reminded her little sister, "and then we would make the spot and go back to get stuff."

"Look, up ahead, the perfect spot!" their mother exclaimed. They marked the spot (with a red flag), and headed back to get their luggage. Then they started to set up camp.
