## ARCANA 2019

“Scary Science Fiction”

September 27-29, 2019

Decongestant is a small SF/F convention geared primarily towards relaxation, with good food & drink, music, 24h gaming, and a teen room. This year in addition to our regular light programming, we are featuring ARCANA, the convention that celebrates The Weird, The Macabre and The Dark Fantastic.

*Believed dead after 2017, ARCANA's convention spirit & programming will rise again at Decongestant 4, somewhere between Henry Frankenstein's, "It's Alive! It's Alive!" and Bauhaus', "Undead! Undead! Undead!"*

For further information about past Arcana conventions, please visit [arcanacon.com](http://arcanacon.com)
